The University of Pavia – one of the world's oldest academic institutions

The University of Pavia is one of the world's oldest academic institutions: it was founded in 1361 and until the 20th century it was the only university in the Milan area and the region of Lombardy.

Pavia has been a city-campus since its foundation and even today it offers students a unique experience

in Italy and rare in Europe: to study at one of 20 University colleges that are largely independent from the administrative structure of the University
